2009
Intermediate
74.9
- **Mp board**
2007
High school
82.4

SKILLS

- Communication
- Customer service
- Problem solving
- Time management
- Leadership

PROJECTS

- **Research and development of hydal power plant**

One week training are done where we know how electricity generated from water with the help of water turbine.

- **Power generation through footwear machine**

If that **pressure** is released by passing the pressurized substance through a mechanical device such as a turbine that causes a shaft to rotate, the potential energy is converted to kinetic energy. If, in turn, the rotating shaft is connected to a generator, the kinetic energy can be converted to **electrical** energy.

LANGUAGE

- Hindi
- English

INTERESTS

- Photoshop
