5

Q3

Ans 1) The reasons for the quality of services of government organisation to be of low standards are -

① the lack of punctuality among the staffs.

The staffs being not punctual shows the lack of seriousness and lack of dedication among them. Thus the organisation is not performing upto the mark due to the ignorance & lack of self discipline among the working members of the organisation.

② The staffs having wasting time in the meaningless conversation. Shows the time being wasted and the productivity of the organisation being wasted fully.

The discipline and the code of conduct is not being followed which is affecting the total outcome in the organisation.

in the organisation ✓

① The feedback & complaints of the public are not being kept in the account making the goodwill and reputation of the organisation to the stake.

The goodwill is very important for the long run. Goodwill creates the hindrance in the working. Thus the outcome of not being able to meet the public complaints will be very devastating for the long run of the organisation.

② The main problem is red tapism & Corruption.

The people of the Society are not equal. Some are rich & some are poor. The quality of the services to be provided in Government organisation should be equal to all kind of class. The corruption is promoting the social inequality and creating hindrance in the file and action being taken.

The activities in the organisation thus are working at a slower pace without being efficient & accountable. If the corruption prevails then the accountability & image of the Government organisation among the public

if the corruption prevails than the Accountability & image of the Government organization among the public will fall damaging the institution in a very gradual way.

Q The following code of conduct, ethics & morality along with corruption & lack of strong leadership creates the problems and should be solved with effective managerial skills. Thus to ensure the Accountability and responsible system of services to the public.

↳ Removing Corruption

↳ Enforcing Code of Conduct

↳ Creating responsibility among the workers and taking action against them if they are not following them

↳ Taking feedback & problems of the public into account & solving their problems

↳ Creating dedication among the employees
