Industrial Revolution was a period in 18<sup>th</sup> & 19<sup>th</sup> century in which the mode of production took a radical turn from Agrarian to industrial economy in England. This change was unprecedented in many ways. It impacted England & whole world in positive as well as negative sense.

- Positive
- (1) It created a capitalist economy where money flow was high.
  - (2) It raised the standard of living of the people.
  - (3) It was good for imperialistic nations like France & England.

## Negatives

- (1) It drastically changed or we can say disturbed the population distribution.

- (2) It motivated the first world to find more resources and imperialism grew.
  - (3) production of weapons lead to wars.
  - (4) Small cottage industry heavily impacted.
- In Today's scenario Industries are important but the sense of trusteeship should be there & pure free market should not be.

I Treaty of Versailles was a historic event in world history signed between Allied & Axis powers on 28 June 1919 at Versailles. This treaty was considered as the war in disguise.

This treaty includes

(1) Germany was held responsible for war.

(2) A war reparation of \$33 bn to be paid by Germany.

(3) Limitation on the strength of Military (20,000 soldiers).

(4) Germany & His Allies had to leave their territory and will be distributed between winners.

ns  
This treaty sowed the seed of World War 2 as the humiliation faced by Germany worked as potential bomb and an opportunity for Hitler to propagate his propaganda. Treaty was like a one time chance for France & Britain to capture as many colony as possible.
